WASTE MANAGEMENT BRANCH

Dear Sir:

Enclosed please find a report filed pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, notifying EPA of certain quantities of material deposited prior to August 1982 in the City dump of Hoquiam, Washington, which exhibited a hexavalent chrome content in excess of that listed for the Agency's EP toxicity test (40CFR 261.24 Table I) This report is being filed at this point in time because the company has recently become aware that this material exhibits a hexavalent chrome content when analyzed using the test procedure set forth in the 45 Fed. Reg. 72024. The company has analyzed the material for years using the nitric acid, ether colormetric qualitative test procedure and never found that it contained hexavalent chrome.

Please address any questions concerning the matter to me at the above address.

Very truly yours,

E. F. Button
